Bad colds cannot always be avoided or warded off, but nearly always. Take note of the very first symptoms; if a cold runs a day or two, it will run two weeks longer, in spite of all remedies. Often simply placing the feet in a warm oven, and holding them there a half hour, will equalize the circulation, and thus break up a cold. But if it will not, go to bed with a bottle of hot water to your feet, a wet towel wrapped entirely around the body over the abdomen, overlaid with a dry one, and place on the bed an extra amount of covering. This will break up your cold before daylight, in nine cases out of ten. We do not simply "guess" at this. We are positive of it.

QUIET FOLKS.

Quietness is sometimes a sign of bodily health. The nervous man, who is always stirring, is seldom strong. But when a man is thoroughly wrapped up in himself and his own importance, perfectly satisfied with his position and prospects, the cut of his clothes, the length of his whiskers, the attenuation of his umbrella, and the luster of his hat, the chances are that he is very quiet. Such men are habitually well dressed; but, as they get on in life, they cling to old fashions. They are not considerate for others, yet they give very little trouble. They exact the utmost service, but make no fuss about it. They are painfully regular and punctual, but never seem put out by other people's want of order. They are bores at a dinner party, wet blankets at a picnic, mere sticks at a ball; but excellent as officers, admirable parsons, and much sought after by match-making mothers. It is they who carry off the heiresses; who always save money; who are never in debt or difficulty, as other men are; who are regular in their devotions, and invaluable on committees, where they always get their own way, without trouble or fuss. They habitually wait till every one else has spoken, and then make the single remark which concludes the matter, and which seems as if it had risen to the surface, like cream, of itself. Strict order is kept in their houses; but they do not, as a rule, make good fathers. Their children are too much afraid of them, and too glad to get away from home. Strange to say, though they seldom speak, they are excellent correspondents, write well, clearly, and at great length, and often turn into authors, especially novelists. They have observed while others talked, and have passed mental judgment which their secretiveness enables them to store for use. They are seldom deficient in humor, tell a story in the fewest words, well and quietly; and have generally some friend in whose society they take a silent and subdued pleasure, and with whom they can sit for hours without speaking. They live respected by all who know them, are trustees and guardians to innumerable wards, and are often more missed when they die than greater men. If the world fails to love them, it makes up by trusting them; and every few years one of them turns out to have elaborated some gigantic system of fraud, and goes away into exile without a word.

* * *

Gold Lace.—One of the most singular mechanical operations imaginable is the making of gold wire for what is known as gold lace. The refiner first prepares a solid rod of silver about an inch in thickness; he heats this rod, applies upon the surface a sheet of gold leaf, burnishes this down, and so on, until the gold is about one hundredth part the thickness of the silver. The rod is then subjected to a train of processes which brings it down to the state of fine wire, when it is passed through holes in a steel plate, lessening step by step in diameter. The gold never deserts the silver, but adheres closely to it, and shares all its mutations; it is one hundredth part the thickness of the silver at the beginning, and it maintains the same ratio to the end. As to the thinness to which the gold-coated rod of silver can be brought, the limit depends on the delicacy of human skill. It has been calculated, however, that the gold actually placed on the very finest silver wire for gold lace in not more then one third of one-millionth of an inch in thickness; that is, not above onetenth the thickness of ordinary gold leaf.

* * *

Cigarettes are universally smoked by Russian ladies. They even smoke at railway stations, on steamboats and at hotels, dozens of cigarettes a day sometimes, scratching the necessary matches on a pillar or post, just like a man. Sometimes a light goes out and they try again—as why shouldn't they? If they have no matches or wish to save themselves the trouble of lighting one they ask the first gentleman smoking they meet to favor them with a light! Leaning forward to the cigar, pipe or cigarette which he extends, they ignite their ittle roll, bow silently and pass on. Sometimes a gentleman asks a lady to extend to him the same favor, which she graciously accords him.

In one of his letters to the celebrated preacher, Whitefield, Benjamin Franklin wrote: "I am now in my eighty-fifth year and very infirm. Here is my creed: I believe in one God, the Creator of the universe That He governs by His providence. That He ought to be worshipped. That the most acceptable service we can render Him is by doing good to His other children. That the soul of man is immortal, and will be treated with justice in another life respecting its conduct in this. These I take to be the fundamental points in all sound religion."

The Savannah theater was built in 1800, and is the oldest in America. It is a massive building of brick and stone. It has never been remodeled or changed in any way. The architect of this theater was an Englishman brought to America by the Blake brothers, two wealthy rice planters of South Carolina, who at that time had their residence in Savannah.

Some Harvard students offered the printer $3000 for an advance copy of the questions to be submitted to them at an examination. The printer had completed the job and parted with the sheets; but he obtained an old set of questions, put them in type and struck off a proof, which he sold to the students for the $300. They did not discover the double quality of the fraud until examination day.

WASHINGTON LETTER.

WASHINGTON, D. C. Jan. 26th 1880.

The Republican party of Pennsylvania seems likely to declare itself independent of ring rule, and there is great rejoicing among Republicans here. The Camerons have never been beaten in their party Conventions there, but they called the State Convention earlier than the party thought proper, in order to force it to instruct the delegation to Chicago to vote for General Grant. While Republicans have no fault to find with General Grant, they are desirous of a fair and free contest, and they look with complacency upon its reports that the Republicans of Pennsylvania reject Camerons advice, and will act their own pleasure. It is feared by many that the action of the Camerons has injured General Grant's chances.

Senator Paddock of Nebraska is a good representative of his State and section. He is now looking sharply after the interest of those who go out to settle on the public lands, having introduced four bills for protecting and regulating their entering and sale.

The womans rights people are here trying to get Congress to recommend a 16th Amendment, in favor of Woman's suffrage. They are also urging to have delegations to all the party National Conventions this Fall, and promise to support those candidates who favor their ideas. Probably their influence will not be heavy.

Senator Blaine is momentarily expected here, and then we shall hear from the great Republican leader himself the facts about the fight in Maine. He has won a great victory there over a desperate gang of rascals, and the whole party honor him for it.

It begins to appear that the fault lies with Commissioner Bentley himself for the tardiness in the work of the Pension Office, and great fault is found with him. The best judges assert that he has been all the time calling for more legislation and more help to cover up his efficiency as an execution officer. He is one of Secretary Schuzr's pets, and it is thought difficult to effect any change, but leading Republicans now declare that he is a very expensive luxury.

The Emigration Society here report that they have letters from Indiana, and other retreats of the colored men, who have fled from North Carolina, and they are very favorable. None of them want to return South, and they write continually for other friends to follow them. Senator Voorhees will get all he wants of this kind of information.

The long term feature of the bond proposed by Mr. Wood does not meet the favor with which the 3½ per cent. feature does. While the house Committee, on ways and means and in fact a majority of members of the House believe in a 3½ per cent. they favor a 30 year bond rather than one to run 50 years. It is probable that the 30 year bond will prevail.

MAXWELL.

ASSEMBLY.—Wasson's Assembly Bill No. 294. An act to establish Courts Conciliation in each of the Counties of the State has been referred to the Judiciary Committee.

The Assembly has passed the bill amending the Code, so as to confer upon the Superior Courts the authorities conferred on the old Courts.

Assembly bill No. 243 (Wasson's), for the better protection of laborers, was amended to include only corporations, and ordered to be reported favorably.

In the Senate Enos has introduced a bill providing that none but bona fide stockholders can vote for officers of mining corporations, and each voter must be present at the meeting—no proxies being allowed.

Relating to the sale of lands for delinquent taxes.

CONCERT.—The concert last evening under the management of Professor A. Patrone was the best entertainment ever given in Bodie. The house was crowded with an appreciative audience and general satisfacton was expressed. The overtures and songs were handsomely rendered as was also the Carniral of Venice, violin, by Mr. Pratone. The solo by W. T. Haskins, cornet, was splendid. The fancy dance by Florence, the 9 year old daughter of P. P. Molinelli, was graceful and much admired. Among those encored were Mrs. Dr. Robertson, Mrs. Molinelli, J. N. Harrison, E. B. Pixley, John Neuman, A. Patrone, McTarnahan, Clarke, W. T. Haskins and G. C. Staley. It is pleasing to note that it was a financial success. We trust the public will soon be favored with a repetition.

At New York Denis Kearney thus spoke of Tilden:

That political devil-fish with false teeth, false wig, false heart, or rather false gizzard, for he has no heart; that fraud, election fraud, cipher fraud, fraud of all frauds, Sam Tilden, sits in his office like a great spider, with suckers out all over the continent.

Bogus $5 gold pieces are being quite extensively circulated. The imitation is perfect except in weight, the coin being only 700 fine. Mexican doubloons of a similar character are also being offered for sale.

The Supreme Court of Wisconsin decides that a mercantile agency cannot be compelled to disclose the names of its correspondents.

Samuel Holt was run over and killed by a railroad trrin Tuesday near San Gabriel, Los Angelos county.

The Pennsylvania delegation have been instructed to vote for Grant.

CONSTABLE.—J. F. Kirgan having resigned, S. G. Stebbins has been appointed Constable of Bodie Township.

THE BOARD OF SUPERVISORS.—The Board has been in session during the week, a large amount of business being on hand.

The two important events in the life of man is when he examines his upper lip and sees the hair coming, and when he examines the top of his head and sees the hair going.

Application to Purchase Timber Land No 79.

UNITED STATES LAND OFFICE.
Bodie, Cal., February, 4th, 1880.

NOTICE IS HEREBY GIVEN THAT whereas Monroe Shattuck, a citizen of the United States over the age of twenty-one years has made application under the Act of Congress entitled "An Act for the sale of timber lands in the States of California, Oregon, Nevada, and in Washington Territory," approved June 3, 1878 to purchase at this office S. ½ of S. E. ¼ and E. ½ of S. W. quarter of Section 11, Township No. 4, N. Range No. 25 East, M. D. M. containing 160 acres, claiming said land to be valuable chiefly for its timber. And the said applicant having made and filed in this office the affidavit as to the character of said land as required by said Act

Now, therefore, any and all persons claiming said above described land, or any part thereof adversely to the claim of the applicant thereto, are required to file their adverse claims with the Register of the United States Land Office, at Bodie, State of California, during the sixty days publication hereof, or they will be barred by virtue of the provisions of said Act.

Application to Purchase Timber Land No. 77.

UNITED STATES LAND OFFICE,
Bodie, Cal., January 22, 1880.

NOTICE IS HEREBY GIVEN THAT whereas Isaac W. Hunt, a citizen of the United States, over the age of twenty-one years, has made application under the Act of Congress entitled "An Act for the sale of timber lands in the States of California, Oregon, Nevada, and in Washington Territory," approved June 3, 1878, to purchase at this office the W ½ of N E ¼ and E ½ of N W quarter of Section 12, Township 4 N Range 25 East, M. D. M., containing 160 acres, claiming said land to be valuable chiefly for its timber. And the said applicant having made and filed in this office the affidavit as to the character of said land as required by said Act.

Now, therefore, any and all persons claiming said above described land, or any part thereof adversely to the claim of the applicant thereto, are required to file their adverse claims with the Register of the United States Land Office, at Bodie, State of California, during the sixty days publication hereof, or they will be barred by virtue of the provisions of said Act.

PROBATE NOTICE.

IN SUPERIOR COURT, MONO COUNTY, California.

In the matter of the Estate of WILLIAM MILLER, Deceased:

It appearing to the Judge of this Court, by the petition this day presented and filed by Jane Miller, the Administratrix of the Estate of Wm. Miller, deceased, praying for an order of sale of real estate; that it is necessary to sell the whole of the real estate to pay the allowance to the family, and the expenses and charges of Administration;

It is therefore ordered that all persons interested in the estate of said deceased, appear before the said Superior Court on Monday, the 23d day of February, 1880, at 11 o'clock A. M., at the Court Room of said Superior Court, in Bridgeport, of said County, to show cause why an order should not be granted to the said Administratrix to sell all the real estate of the said deceased.

And that a copy of this order be published at least four successive weeks in the BODIE CHRONICLE, a newspaper printed and published in said county.

Signed, R. M. BRIGGS,
Superior Judge.

LOCAL INTELLIGENCE.

OUR WATER SUPPLY.

One of the most important events—if not the most important—in the history of Bodie was the completion of its water works and the turning on of the water from the reservoir on the hill on last Wednesday. At 10 o'clock that morning a large number of our citizens assembled at the reservoir to witness the ceremonies. At the hour named Judge Bechtel in company with the Directors of the Bodie Water Company, proceeded to a point midway between the Mono mine, from which the water is now obtained, when the Judge turned the water into the pipe leading into the reservoir. The party then returned to the reservoir and soon had the pleasure of seeing the water make its appearance from the pipe which pokes its black mouth through the bottom of the reservoir. As soon as the water had reached a depth to allow it to run into the grating protecting the opening of the main supply pipe. Judge Bechtel, after making a few appropriate remarks, turned on the water and sent it speeding down the hill. Upon the completion of this ceremony those assembled gave three cheers, after which all adjourned to town to await the appearance of the saving elements through the hydrants. About half-past 12 water made its appearance through the hydrants at the Standard Mill, but did not show itself with any pressure on Main street until about 4 o'clock, at which time Champion and Neptune Hose Companies made their first appearance in public, with their new hose carts, and attached their hose—the Champion to the hydrant, corner of Mono and Main streets, and the Neptune's to the hydrant near the Miners' Union Hall. The water was turned on at each place and through five hundred feet of hose ascended at least 100 feet from the nozzle of the pipes—a successful outcome of our water enterprise. The streams were powerful ones and would soon take the shingles off of a roof in case of a fire. The trial was a successful one and elicited cheers from the crowds of citizens filling the streets—for everybody was out of doors anxiously awaiting the result. After playing over the highest flagstaffs in town, the Champion boys took up and went to the Standard Mill and attached to the hydrant on the corner of Mono street. A strong unbroken stream was thrown over the Mill and over the tall smoke stack, giving another evidence of the success of this great undertaking. After taking up, the firemen, by invitation proceeded to the Pioneer Brewery to recuperate after their exercises. Late in the evening the Champion had a champagne "Blow out" given them by Sam Pitcher, the worthy host of the Grand Central Hotel. The trial was extremely satisfactory, the more so on account of the low stage of water in the reservoir at the time. With full supply of water in the reservoir and efficient hose companies our citizens may now rest easy on the score of fire. With good apparatus and efficient officers there is no reason why we should not have a good fire department, and we hope that our citizens will now be liberal in fostering this important branch of a town government. The generosity of Judge Bechtel in promptly advancing the Company means to liquidate the indebtedness, and thus enable it to receive the works, is worthy of more than a passing notice, and this is but one of many kind acts of the Judge, both public and private. His promptness has given us a safeguard against fire at an earlier day than was expected.

FATAL MINING ACCIDENTS.—Another fatal accident occured here on Monday last.—While Patrick Brandon, Edward Fitzpatrick and Thomas Fitzsimmons were timbering the shaft of the Maryland Consolidated mine, the scaffolding, upon which they were at work some 80 feet above the bottom of the shaft, gave way, precipitating them, with the scaffold and timbers they were putting in, to the bottom, instantly killing Fitzpatrick and fatally injuring Brandon, who died the same evening. The unfortunate men were all good miners, but in their zeal to place as many sets of timbers as possible before the 3 o'clock shift went on they were careless in wedging up, causing the timbers to fall on the scaffolding, carrying all to the bottom, as above stated. Col. Dunn, President of the Company, and at present acting Superintendent, recommended timbering from the bottom, as being much safer, but they preferred to timber down.

This morning, at the change of shift, Martin King was instantly killed in the McClinton mine. It appears that there were two men standing on the bucket as it was hoisted, and one in it. While passing from the incline to the perpendicular shaft, going slowly and the lights being out, King was suddenly missed and a moment afterward he was heard rolling down the incline, having fallen on the skids, about four feet below, and then rolling down the incline. The probability is that he fainted while standing on the bucket. The deceased was a native of Ireland and a single man. Although one of the oldest mines in this district this is the first accident at the McClinton.

A PITIFUL WHINE.—We find the following in the Free Press:

"The BODIE CHRONICLE, a weak weekly weakling published here, boasts of its plan of doing job work. On receipt of an order it sends it to Sacramento, thereby saving, possibly, a few cents to the man who gave the order. By doing this the CHRONICLE says they help a deserving paper. A paper that believes and acts on that principle is not deserving and should be utterly ignored by every merchant and business man in town. It is working directly against the interests of Bodie and the people who live here. If every individual thought as the CHRONICLE thinks there would be no business or money here at all. A paper published in Bodie should advance the interests of the town, and not aid in putting money into the pockets of Sacramento people. The "enterprising" paper says it will shortly appear as a daily, and is educating a few girls to set type for that purpose—thereby saving the expense of hiring union men at union prices. It says: "The people of Bodie evidently tire at this continual drain for the support of papers. Under the circumstances they will patronize those worthy of support." We are greatly mistaken if the miners and business men of Bodie care to give their aid to a journal that entertain such principles as the CHRONICLE preaches

"Weak weekly weakling" is a pretty loud squeak for such a little fellow. Our columns refute the "weak weekly weakling," as they are evidence of strength—just what they are. In regard to job work, the Press is indebted to us for numerous favors. We have often been called upon for urgent work, and in every instance the parties, at our suggestion, procured it at the Press office. If our business men did not think as we do, and act accordingly, people would purchase outside of Bodie. Unlike our cotemporaries they are just to customers and do not exact exorbitant prices. They know how to transact business and are not so selfish as to envy and whine at the prosperity of an honorable competitor. In this connection we mention that we continue to furnish the best of job printing at "Sacramento prices."

The Press implores the miners and business men to ignore us because we do job work at low, but living rates; and employ lady compositors. On the first of March it will ascertain that numerous others besides miners and business men are "standing in" to give us a good "send off." The diaper youngster blundered in allowing its live, able-bodied male compositors the use of its columns to war against women, but the Union printers are masters in the offices of our cotemporaries—another fatal blunder. Next week we will "write up" the compositor question—from a twenty year standpoint; not an airy four month one.

THE BODIE MINES.

NOONDAY.
John Parham. Sup't.

This mine is looking well and work is progressing satisfactorily in every quarter. The crosscut on the 400 is in 150 feet east. The crosscut east from the 500 level is in 150 feet. No. 1 vein has been cut in both of these levels. The winze on No. 5 vein, 300 level, is down 60 feet, the vein continuing strong and looking well. The upraise from No. 1 in Noonday is up 110 feet. The upraise from No 2 North Noonday, is up 145 feet. The connection will be made with the 500 level in a few days. Have connected vein No 1, on 300 level, with the winze near the old Noonday shaft, which insures perfect ventilation in all stopes in the mine. The machinary in both mill and mine is working nicely. The mill is doing good work and running steadily.

BOOKER.
A. M. Ellsworth, Sup't.

The south crosscut on the 300 level is in 230 feet from the shaft, and looking well, the vein being 20 inches wide and dipping to the east. On account of the strength of the water supply, work in the crosscut on the 480 level has been stopped for the present, but will be resumed in a few days when the water will be reduced. A crosscut has just been started on the 400-level. The mine generally is looking well and barring the water, everything about the mine is working satisfactorily. The company will soon put in heavier pumps, after which the water will not be as troublesome as it has been.

TIOGA.
C. H. Goulding, Supt.

At the present depth of the shaft, 767 feet, a stringer of valuable silver bearing ore has been passed through during the week. Sinking is still being prosecuted with vigor. The Syndicate drift has been driven 11 feet during the past week in favorable working ground; have yet 38 feet to run to connect with Syndicate main tunnel. The upraise on vein No. 3 has reached 109 feet on the incline. Still following the vein at an angle of 45 degrees. East crosscut from the Ralston winze on the 620 foot level has been advanced during the week 13 feet. No change to note since last report.

GIPSEY QUEEN.
A. M. Ellsworth. Supt.

Work will be resumed at this mine as soon as the necessary building can be erected and machinery put in. The building will be 2 x75 and will be erected immediately. An engine and boiler has been shipped from San Francisco. The shaft is double compartment, 4x8, and was down 75 feet when work was stopped last Fall. The claim is just south of the Goodshaw.

ORIGINAL SUMMIT.
A. M. Ellsworth Sup't.

The shaft is down 105 feet. A drift is now being run on the vein on this level. The vein is about 9 inches wide and looks very promising. This claim is well thought of, and will undoubtedly develop into a good property.

MAYBELLE.
J. Parham, Sup't.

There is nothing particular to report. They are upraising on the vein, which is said to be looking well.

PERSONAL.—Judge F. K. Bechtel, after a few days sojourn, left on Thursday for San Francisco.

J. L. Holland, lately of the Red Cloud, after a brief visit, left this afternoon for Nevada City.

Henry Lord, son of R. F. Lord, Superintendent of the McClinton, arrived yesterday, and will enter his father's office.

J. C. Kemp, of the Occidental Hotel, left for the Bay, on Thursday last, to purchase material for the enlargement of the Occidental.

George Macartney, Mining Recorder, leaves to-morrow for a short visit to San Francisco.

* * *

A RATTLE.—The Press will have a rattle on the 1st of March next, and an appropriate gift it is. It is delighted to have the county printing and gravely says it was awarded because it is a favorite, and all that sort of twaddle. Why did it not say that it proposed to do the county printing and delinquent tax list for $285; and that the CHRONICLE's bid was $700. We can use our columns to better advantage than lumbering them with election laws and delinquent tax lists for such paltry pay. It long since ceased to be a novelty with us to have public printing.

* * *

THAT'S SO.—The Virginia Enterprise says:

"The BODIE CHRONICLE has stuck to its old-fashioned hand press, paid its debts according to contract, and can see its way clear, while its cotemporaries, with steam engines and big presses and debts, cannot see beyond a day.

And so say the people of Bodie.

* * *

"MERCILESS SAVAGES."—Our morning papers have commenced war upon the school marms of Bodie, and the lady compositors of this office. They have divided forces, the News attacking the former, and the Press the latter. Whither are we drifting?

* * *

ROAD TO BRIDGEPORT.—About five miles of bare ground is below Mormon station, therefore travel is by the Hot Spring Canyon, the road leaving the main road, to the right, about one mile below the Station. Excepting a few bare spots the sleighing to Mormon ranch is excellent.

* * *

NEW STATION.—Amos Wood and W. P. Nay, of Reno, arrived here on Thursday last for the purpose of borring for water at a point on the Bridgeport road, two miles this side of Mormon Station. If successful a station will be built,

* * *

NOT SO.—The Press says that Mono county is solid for Grant. A canvass will show that Blaine is the man.

COUNTY PRINTING.—The Press and CHRONICLE bid for the county printing and delinquent tax list. The former proposed to do both for $285. The latter offered to do the county printing for $300 and the delinquent list for $400. It was awarded to the Press and on March 1st we shall drop "County Official Press," and the Press will assume the luxury.

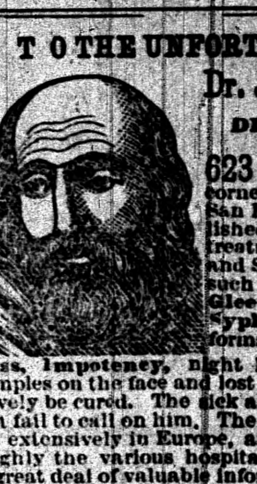
MEDICAL.

T O THE UNFORTUNATE.



Dr. J. F. Gibbons' DISPENSARY, 623 KEARNY ST., corner of Commercial, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet Stricture, Syphilis, in all its forms, Seminal Weakness, Impotency, night losses by dreams, pimples on the face and lost manhood can positively be cured. The sick and afflicted should not fail to call on him. The doctor has traveled extensively in Europe, and inspected thoroughly the various hospitals there, obtaining a great deal of valuable information, which he is competent to impart to those in need of his services. DR. GIBBONS will make no charge unless he effects a cure. Persons at a distance MAY BE CURED AT HOME. All communications strictly confidential. You see no one but the Doctor. Send ten dollars for a package of medicine. Persons writing to the Doctor will please state the name of the paper they see this advertisement in. Charges reasonable. Call or write. Address DR. J. GIBBONS, Box 1,957, San Francisco. ap12-1y

DR. SPINNEY
No. 11 Kearny Street,
SAN FRANCISCO.
Treats all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with the frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient can not account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

OFFICE HOURS—10 to 4 and 6 to 8. Sunday from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5.
